

Sustainability Report 20XX

Prepared in accordance with GRI Standards 2021 and SASB Standards

Cover Page

- Company Name
- Reporting Year
- Reporting Boundary
- Reporting Frameworks:
- GRI Standards 2021
- SASB Standards
- TCFD (optional)
- ISSB/IFRS S1-S2 (optional)

Table of Contents

CEO Statement

- Sustainability vision
- Major achievements
- Key challenges
- Future commitments

About This Report

Reporting Scope

- Reporting period
- Organizational boundary
- Operational boundary
- Consolidation approach

Reporting Frameworks

- GRI 1 Foundation 2021
- GRI 2 General Disclosures 2021
- GRI 3 Material Topics 2021
- SASB Industry Standard

External Assurance

- Assurance provider
- Assurance scope
- Assurance statement

Company Profile

Corporate Overview

- History
- Business model
- Products and services
- Geographic presence

Corporate Structure

- Subsidiaries
- Joint ventures
- Value chain

Key Figures

- Revenue
- Employees
- Market share
- Production volumes

Sustainability Governance

ESG Governance Structure

- Board oversight
- Sustainability committee
- Executive responsibilities

Risk Management Framework

- ESG risk identification
- Assessment methodology
- Risk mitigation

Ethics and Compliance

- Code of conduct
- Anti-corruption
- Whistleblowing mechanisms

Stakeholder Engagement

Stakeholder Identification

Stakeholder Group	Engagement Method	Frequency
-------------------	-------------------	-----------

Key Stakeholder Concerns

Response Mechanisms

Materiality Assessment

Methodology

Identification

Prioritization

Validation

Double Materiality Analysis

Materiality Matrix

Material Topics List

1. Climate Change
2. Energy Management
3. Occupational Health & Safety
4. Human Capital Development
5. Water Management
6. Waste Management
7. Business Ethics
8. Supply Chain Sustainability
9. Diversity and Inclusion
10. Community Relations

Environmental Performance

Climate Change

Management Approach

Targets

Risks and Opportunities

KPI Dashboard

Indicator	Unit	Current Year	Previous Year
-----------	------	--------------	---------------

GHG Emissions

Scope 1

Scope 2

Scope 3

Emission intensity

Reduction initiatives

Carbon Reduction Projects

Renewable Energy

Carbon Neutrality Roadmap

Relevant GRI:

- GRI 305

Relevant SASB Metrics:

- Industry-specific emissions metrics

Energy

Energy consumption

Energy intensity

Renewable energy percentage

GRI 302

SASB Energy Metrics

Water

Water withdrawal

Water consumption

Water discharge

Water stress regions

GRI 303

SASB Water Metrics

Waste and Circular Economy

Hazardous waste

Non-hazardous waste

Recycling rates

GRI 306

SASB Waste Metrics

Biodiversity

Protected areas

Habitat restoration

GRI 304

Social Performance

Human Capital

Workforce composition

Employee turnover

Training hours

Employee engagement

GRI 401 GRI 404

Occupational Health and Safety

Fatalities
